

# About Our Institution

## Our School

*Vision: Our vision is to become an reference educational institution recognized and admired within Istanbul and Turkey, with a corporate identity capable of producing individuals who are always successful, effective, qualified, initiative-taking, democracy-embracing, and equipped with the skills necessary to contribute to Turkish culture and urbanity. We aim to be leaders in social and cultural activities, promoting values that resonate with universal educational principles.*

*Mission: Our mission is to facilitate our students' learning by considering their individual qualities, increasing their achievements, and preparing them to excel in Turkey's top universities, where they can realize their full potential. We aim to raise individuals who embody national and spiritual values, possess high self-esteem, adopt a multidimensional and objective perspective on events, and gain skills to meet the evolving needs of their time. We are committed to fostering good and positive communication with their surroundings.*

*Achievements: Our fundamental principles and values are as follows:*

- We embrace the national and moral values of our nation in line with the objectives of Turkish national education.*
- We prioritize values such as love for humanity, honesty, diligence, and environmental awareness.*
- We value the "We" mentality over the "I" mentality.*
- We prioritize student-centered education in our educational activities.*
- We believe in the importance of effective communication in enhancing educational success, prioritizing students' learning-to-learn skills, and emphasizing the importance of experiential learning.*
- We accept as a fundamental educational principle the discovery of our students' talents, their self-recognition as individuals, and their awareness of their responsibilities to society through the careful attention we give to social activities.*
